

Paper Plate Fans

Here is a super easy way to make yourself a fancy fan at home.

Follow these instructions and show us your brilliant fans on the Facebook page! Claire will also put a video tutorial on there for you.

What you need:

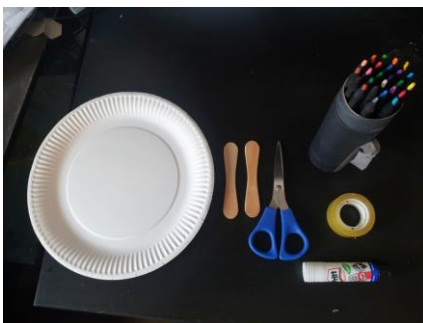

1 paper plate

2 lolly sticks

Scissors (and a grown up!)

Glue or sticky tape

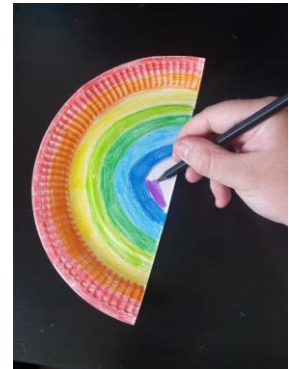

Colours (pens, pencils, paints, anything!)

1. Ask a grown up to help you cut the paper plate in half. This will be your fan. You can make two fans with one plate!

2. Colour in your paper plate with whatever design you would like. You could do patterns, words or pictures. You can also colour your lolly sticks if you would like to.

3. Get your two lolly sticks and stick one end together so it makes a V shape. This is going to be your handle to hold.

4. Stick the spread out ends of the lolly sticks onto the back of your paper plate. Stick it tightly so that the paper plate doesn't fall off when you use it!

Now you have your own fan! Well done!
